

iNPIPE PRODUCTS

iNPIPE PRODUCTS™ is an acknowledged world leader in the design, manufacture and supply of pipeline pigging, maintenance, testing and isolation products for over 35 years. With extensive engineering experience and expertise, the company has the capacity to offer custom engineering and a full turnkey project solutions dependent upon specific client requirements.

Operating in the oil and gas, petrochemical, power generation, mining, nuclear, water and food processing industries, iNPIPE PRODUCTS engineers a comprehensive range of products including foam and metal bodied pigs, cup pigs, bi-directional cleaning/gauging pigs, pig handling equipment, isolation tools, spheres, pig signallers, pig tracking, pig diverters, pig launchers and receivers as well as bespoke engineered solutions.

iNPIPE HIRE™ offers one of the largest worldwide hire fleets of isolation tools including internal and flange type weld testers up to 56 in., high pressure plugs and the dual tools. The extensive range of simple, easy to use tools for pipeline testing and isolation provide a solution, incorporating a unique and patented Posi-seal technology.

iNPIPE PRODUCTS Solutions provides clients with a range of project management and engineering consultancy services for pipeline pigging and flow assurance. The company can assist clients with all aspects of pipeline maintenance, cleaning, repairs, inspection, testing and commissioning.

The company has extensive experience in the design, manufacture and full FAT testing from its 6-acre site in the UK and delivering worldwide. iNPIPE PRODUCTS™ is always in total control of all manufacturing from its purpose designed 60 000 ft² factory split into three bays: polyurethane moulding, fabrication and a fully integrated machine shop. Total control, right first time and on-time deliveries.

FLEXICAST™ PIGS.

FULL WIRE BRUSH AND CARBIDE FOAM PIGS AND BI-DIRECTIONAL CARBIDE TIPPED STUD PIGS.

CASE STUDY

iNPIPE PRODUCTS was recently approached by a major EPC Contractor in the Gulf region who required enhanced pipeline cleaning tools for the removal of scale, corrosion and salt deposition.

Following detailed design review of the client pipeline data, iNPIPE PRODUCTS designed, manufactured and supplied 36 in., 30 in. and 24 in. full wire brush and carbide foam pigs and bi-directional carbide tipped stud pigs complete with pluggable bypass. 

-  Pipeline proving
-  Pipeline gauging
-  Precommissioning
-  Dewatering
-  Mandrel pigs
-  Foam pigs
-  Solid cast pigs
-  Pig tracking
-  Pig signals: intrusive
-  Pig signals: non-intrusive
-  Intelligent pigs: MFL
-  Intelligent pigs: UT
-  Intelligent pigs: geometry
-  Intelligent pigs: other
-  Inhibitors/chemical cleaning
-  Data analysis
-  Other -Pipeline isolation, decommissioning and cleaning
